

THINK EASTER WEEK BEST FOR BABY CAMPAIGN

Idea of Postponement Until Fall Given Up as Interest Becomes Widespread

Honolulu's proposed "Baby Week" probably will be held during the coming Easter vacation, that is, from April 17 to 22 inclusive.

This announcement has been made by Mrs. James A. Rath, chairman of the "Baby Week" publicity committee, which, with the assistance of the local newspapers, has been giving considerable impetus locally to the movement, which has become nation-wide.

During the publicity week, which ended Saturday, a live publicity campaign was conducted through the Star-Bulletin and other newspapers. The present week will be devoted to organization by the campaign and on next Thursday morning at 10 o'clock the members of the publicity committee will meet in the Library of Hawaii to discuss the formation of permanent committees.

Publicity Board to Meet

These committees probably will be appointed either the latter part of this week or early next week, so that they may have ample time in which to prepare for the campaign.

The members of the publicity committee are: Mrs. Rath, chairman; Mrs. Walter F. Frear, Miss Ermine Cross, Mrs. Riley H. Allen, Mrs. E. D. Kilbourne, Mrs. Montague Cooke, Miss Jessie Rae, Mrs. R. O. Matheson, Mrs. Isaac M. Cox, Mrs. Philip Weaver, Mrs. L. L. Loubourou, Mrs. Arthur G. Smith, Mrs. F. W. Macfarlane, Madame Hachiro Arita, wife of the Japanese acting consul, and Mrs. Tazang Woohuan, wife of the Chinese consul.

"At first it was decided to hold 'Baby Week' next fall," Mrs. Rath explained today, "but interest in the movement has become so keen that it practically has been decided to have it during Easter week."

Two locations already have been proposed for the exhibits, lectures and other features of the campaign, namely, the Palama Settlement gymnasium or some vacant store in the business district.

Easter Week Opportunity

One of the advantages of conducting the campaign during Easter week is that the period will be a vacation. The older children will be at home to care for the youngsters while the mothers devote their attention to the campaign. Definite decisions regarding committees and a place to conduct the campaign will be decided at Thursday's meeting.

At the suggestion of the Star-Bulletin the department of public instruction made arrangements whereby facts and figures regarding "Baby Week" were laid before the students of the territorial normal school last week and as a result several hundred of Hawaii's future pedagogues are intensely interested in the movement. Almost daily the subject is being treated as a part of the curriculum.

NEW JERSEY MAN OPENS BOOM FOR ROOT AT CHICAGO

"Ideal Candidate" Declares Franklin Murphy—Fears Roosevelt Could Not Win

(Associated Press by Federal Wire.) CHICAGO, Ill., March 20.—Franklin Murphy, former governor of New Jersey, has brought the Root boom for the presidency to the convention city, where the sub-committee on arrangements for the big Republican meeting is in session today.

"Root is the ideal candidate," declared Murphy today. "The leaders of the Republican party fear that Roosevelt, even if nominated, could not be elected."

Selection of the temporary chairman for the big convention was up for informal discussion today, but it now appears as if no choice will be made before April.

Fred Upham, the Chicago leader of the convention committee, who has just returned from the Atlantic states, reported that the sentiment in the East is for Hughes as first choice, McCall second and Fairbanks third among the men regarded as possible candidates.

BUS SERVICE TO RUGER WILL BE STOPPED AGAIN

Road in Frightful Condition, and City Has No Money to Have Repairs Made

C. G. Ballentyne, manager of the Honolulu Rapid Transit and Land Company, has threatened to remove from service the bus line from the end of the Kaimuki car line to Fort Ruger unless the city repairs the road it runs over, and the city engineer says he has no money to pay for repairs. A rumor to this effect haunted the city hall corridors this morning and George M. Collins, city engineer, confirmed it.

"Repairs on the road were completed on February 4," he declared. "This department can't be run as an adjunct to the Rapid Transit Company, in its present financial state, even if it would be advisable otherwise. It would require the constant services of a repair gang to keep that road in repair with the heavy buses running over it. The rapidity with which it has deteriorated shows that it to continue they will have to bring traffic and if the property owners benefited by the bus line service want it to continue they will have to bring in a petition to have it improved under the franchise tax laws."

The Rapid Transit Company by operation of the bus line can technically evade the provisions of its charter which compel it to maintain its own road bed where it has lines in operation, according to A. M. Cristy, first deputy city attorney. He was consulted by Collins at the time the last repairs were made and delivered an opinion declaring that there was no way in which the street car company could be compelled to pay for the upkeep of the road unless tracks were laid.

Ballentyne this morning offered to do the repairs on the road and render a bill to the city later when his finances were in better shape, but after consultation with the city attorney Collins turned down the proposition. Unless the city did the repair work itself it would have to advertise for bids on the job, he ascertained.

According to Ballentyne's statement to Collins this morning, the buses will be taken off immediately, as the roads are in such poor condition as to render their operation almost impossible.
